### **\*\* Important Note**

**The 2018 Tax Changes have ELIMINATED ALL deductions that are not stated above.**

# 2018 Medical Expenses Worksheet

## Qualified Medical Expense List and Information

Qualified Medical Expenses are any expense that you paid for medical care or treatment that was not paid through your employer's health plan. For example: The premium that was taken out of your paycheck to pay for your health plan cannot be used as a deduction, but a supplementary insurance policy payment that you send directly to the insurance company, or a co-pay you pay for a prescription can. Below is a list of the most common categories of allowable deductions. We have compiled this list to make it easier for you to organize your medical expenses.

### STOP! – READ BELOW BEFORE COMPILING EXPENSES

The IRS only allows amounts from your medical expenses that are over and above 7.5% of your total Income for the current year (Your Income \* .075 = Amount Disallowed. The remainder may be used to add to your itemized deductions). See example below:

#### Example

A married couple earns 110,000 between their two jobs. Their deductible medical expenses total \$7,000 for 2018 that they had to pay out of pocket over and above the non-taxed premiums that have been paid through their employer. The IRS then multiplies their total income for the year by .075 to come up with a 'floor' figure: \$110,000 X 7.5% = \$8,250. This 'floor figure' is what they erase from the total 'out of pocket expenses'. In this example, the couple had \$7,000 in out of pocket expenses, but the IRS will be erasing the first \$8,250 so there will be no 'Allowed Medical Deductions' to work to include in their Itemized Deductions amounts.

### Out-Of-Pocket Medical Expenses (do not include premiums taken out of your check at work)

**YOU MAY SIMPLY ENTER A TOTAL AMOUNT AT THE BOTTOM. We do NOT NEED these expenses broken down. This part of the worksheet is to help YOU so that you do not miss any deductions. On the actual tax return form the IRS requires us to enter one total amount with no breakdown.**

Out of Pocket Cost for Prescription Medications..... \$ \_\_\_\_\_

Private Insurance Premiums such as Blue Cross NOT paid thru an employer..... \$ \_\_\_\_\_

Medicare – All Parts..... \$ \_\_\_\_\_

Primary Taxpayer's Total Long Term Care Premiums..... \$ \_\_\_\_\_

Spouse's Total Long Term Care Premiums..... \$ \_\_\_\_\_

Fees for Doctor, Dentist and Specialty Care Visits..... \$ \_\_\_\_\_

Fees paid to Hospital's or Clinics..... \$ \_\_\_\_\_

Lab and X-Ray Fees..... \$ \_\_\_\_\_

Long Term Care Costs over and above the Insurance Premium..... \$ \_\_\_\_\_

Eye Glasses and Contact Lenses/Supplies..... \$ \_\_\_\_\_

Medical Equipment and Supplies..... \$ \_\_\_\_\_

**TOTAL EXPENSES..... \$ \_\_\_\_\_**

**Enter this Total on Deductions Page Under Medical**

Medical Miles – These are expenses for miles driven for medical purposes..... \_\_\_\_\_

# 2018 Energy Credits Worksheet

The lack of guidance on many of the new tax law changes is unlike anything I have ever seen in my 19 years preparing taxes. I have seen some data that the IRS has re-instated this credit, and other data that they have not. As of the date of this letter, I have been unsuccessful at confirming whether or not the energy credits have been reinstated. To be on the safe side, please let me know if you have installed any of the following in your PRIMARY home in 2018 and if there in fact is some reincarnation of a credit or deduction, I will use it to your advantage under those rules. There is a lifetime limit of \$500 on energy credits. If you have taken the energy credits in the past (any time after 2005 when they became available) and have met or exceeded the new \$500 lifetime maximum, you do not qualify for the credit this year or any future credits if they are available. If you have not exceeded the energy credits up to this point in time, please use our energy credit worksheet included in this package to list the items that you have installed in your home during 2018 and we will calculate the correct credit amount if available. **Note: If we were not the preparer of your taxes for any of the tax years between 2005-2017, it is important to disclose how much of the credit you have taken during those years.**

## Non-business Energy Credit

### Exterior Windows (including skylights)

Purchased after June 1, 2009: U factor <0.30 SHGC <0.30

\$ \_\_\_\_\_

### Exterior doors

Purchased after June 1, 2009: U factor <0.30 SHGC <0.30

\$ \_\_\_\_\_

### Insulation

Meets International Energy Conservation Code (IECC) Standards for 2018

\$ \_\_\_\_\_

### Metal or Asphalt Roof

ENERGY STAR metal roofs with "pigmented coatings" and ENERGY STAR asphalt roofs with "cooling granules".

\$ \_\_\_\_\_

## Residential Energy Efficient Property Credit

### Gas, Propane or Oil Furnace or Water Heater

Energy Factor >0.82 OR a thermal efficiency of at least 90%.

\$ \_\_\_\_\_

### Central Air Conditioning (CAC)

The best way to find tax credit eligibility is to ask your HVAC Contractor (Heating Ventilation and Air Conditioning). To verify tax credit eligibility, ask your HVAC contractor to provide the Manufacturer Certification Statement for the equipment you plan to purchase or, search the Manufacturer's website.

\$ \_\_\_\_\_

### Biomass stoves

These stoves burn biomass fuel to heat a home or heat water. Biomass fuel includes agricultural crops and trees, wood and wood waste and residues (including wood pellets), plants (including aquatic plants), grasses, residues, and fibers.

\$ \_\_\_\_\_

### Advanced Main Air Circulating Fan

Must use no more than 2% of the furnace's total energy. Note: If the fan is qualified, but the furnace is not, you will not be able to take 30% off the cost of the entire furnace. Ask your HVAC contractor to break out the cost of the fan in your bill. You can get a 30% tax credit on the cost of the fan alone.

\$ \_\_\_\_\_

### Air Source Heat Pumps

Qualified Split Systems: HSPF >8.5, EER >12.5, SEER >15 - Package systems: HSPF >8, EER >12, SEER >14

\$ \_\_\_\_\_
